PRODUCT NAME: HTH® SPA PH INCREASER

1. PRODUCT AND COMPANY IDENTIFICATION

Arch Chemicals, Inc. 501 Merritt 7 PO Box 5204 Norwalk, CT 06856-5204 REVISION DATE: 04/23/2009 SUPERCEDES: 03/09/2005

MSDS Number: 000000005373 SYNONYMS: Soda Ash CHEMICAL FAMILY: Carbonate

DESCRIPTION / USE: pH adjuster for pools and spas

FORMULA: Na2CO3

2. HAZARDS IDENTIFICATION

OSHA Hazard
Classification:

Skin irritant, Moderate to Severe Eye Irritant, Possible respiratory irritant,
Eye and skin hazard, Toxic by inhalation

Routes of Entry: Inhalation, skin, eyes, ingestion Chemical Interactions: No known or reported interactions.

Medical Conditions Aggravated: None known or reported

Human Threshold Response Data

Odor Threshold Not established for product.

Irritation Threshold Not established for product.

Hazardous Materials Identification System / National Fire Protection Association Classifications

Hazard Ratings:	<u>Health</u>	<u>Flammability</u>	Physical / Instability	PPI / Special hazard.
HMIS	2*	0	0	
NFPA	2	0	0	

HTH® SPA PH INCREASER

REVISION DATE: 04/23/2009 Page 1 of 10

Arch Chemicals, Inc.

MATERIAL SAFETY DATA SHEET

Immediate (Acute) Health Effects

Inhalation Toxicity: Inhalation of dust may cause irritation to the mucous membranes of the

respiratory tract. Any irritation would be transient with no permanent damage expected. Subsequent coughing and shortness of breath may

also occur from inhalation of this product. Toxic by inhalation.

Skin Toxicity: Contact with intact skin may cause slight to mild irritation consisting of

reversible redness. Contact with abraded skin may cause moderate irritation consisting of transient redness and swelling. This irritant effect would not be expected to result in permanent damage. Not expected to

be toxic from dermal contact.

Eye Toxicity: May cause moderate to severe irritation, consisting of redness, swelling,

and mucous membrane discharge to the conjunctiva. Minor corneal involvement may occur with possible impairment of vision if product is

not rinsed immediately from the eyes.

Ingestion Toxicity: Ingestion may cause irritation of the gastrointestinal tract and

gastrointestinal discomfort with any or all of the following symptoms: nausea, vomiting or diarrhea. Ingestion of large amounts may produce

ulceration to the GI tract. Slightly toxic if swallowed.

Acute Target Organ Toxicity: Contact with the eyes and mucous membranes causes transient

irritation. Minor corneal involvement may occur if product is not rinsed immediately from the eyes. Inhalation may cause irritation. Contact with

skin causes irritation.

Prolonged (Chronic) Health Effects

Carcinogenicity: This product is not known or reported to be carcinogenic by any

reference source including IARC, OSHA, NTP or EPA.

Reproductive and This chemical has been tested in laboratory animals and no evidence of

Developmental Toxicity: teratogenicity was seen.

Inhalation: There are no known or reported effects from chronic exposure except for

effects similar to those experienced from acute exposure.

Skin Contact: Repeated or prolonged skin exposure may cause dermatitis and

possible "soda ulcers" (blistering) of the hands and wrists. This can

result in secondary infections.

Ingestion: There are no known or reported effects from chronic ingestion except for

effects similar to those experienced from single exposure.

Eye Contact: Minor corneal involvement may occur with possible impairment of vision

if product is not rinsed immediately from the eyes.

Sensitization: This material is not known or reported to be a skin or respiratory

sensitizer.

Chronic Target Organ Toxicity: There are no known or reported effects to humans from repeated

exposure to this product.

Supplemental Health Hazard

Information:

No additional health information available.

3. COMPOSITION / INFORMATION ON INGREDIENTS

CAS OR CHEMICAL NAME CAS # % RANGE

Sodium carbonate 497-19-8 98.8 - 99.0

4. FIRST AID MEASURES

Inhalation: IF INHALED: Remove individual to fresh air. Seek medical attention if breathing

becomes difficult or if respiratory irritation develops. If not breathing, give artificial

respiration. Call for medical assistance.

Skin Contact: IF ON SKIN: Immediately flush skin with plenty of water for 15 minutes. If clothing

comes in contact with the product, the clothing should be removed immediately

and laundered before re-use. Seek medical attention if irritation develops.

Eye Contact: IF IN EYES: Immediately flush eyes with plenty of water for at least 15 minutes.

Seek medical attention immediately.

Ingestion: IF SWALLOWED: Call a physician immediately. DO NOT induce vomiting unless

directed to do so by a physician. Never give anything by mouth to an unconscious

person.

5. FIRE FIGHTING MEASURES

Flammability Summary (OSHA): Product is not known to be flammable, combustible, pyrophoric or

explosive.

Flammable Properties

Flash Point: Not applicable Autoignition Temperature: Not applicable

Fire / Explosion Hazards: Material will not ignite or burn.

Extinguishing Media: Choose extinguishing media suitable for surrounding materials.

Fire Fighting Instructions: In case of fire, use normal fire-fighting equipment and the personal

protective equipment recommended in Section 8 to include a NIOSH

approved self-contained breathing apparatus.

Hazardous Combustion Products: Carbon monoxide, Carbon dioxide, Sodium oxide

Upper Flammable / Explosive Limit, % in air: Not applicable Lower Flammable / Explosive Limit, % in air: Not applicable

6. ACCIDENTAL RELEASE MEASURES

Personal Protection for Emergency

Situations:

Use the personal protective equipment recommended in Section 8 and a NIOSH approved self-contained breathing apparatus.

Spill Mitigation Procedures

HTH® SPA PH INCREASER

REVISION DATE: 04/23/2009 Page 3 of 10

Air Release: Dusting from this product could occur. Contain all solids for

treatment or disposal.

Water Release: This material is soluble in water. Notify all downstream users of

possible contamination. Divert water flow around spill if possible and

safe to do so. Contain all solids for treatment or disposal.

Land Release: Sweep up and place in suitable clean, dry containers for reclamation

or later disposal. Do not place spill materials back in their original containers. After removal, flush contaminated area thoroughly with

water. Contain all solids for treatment or disposal.

Additional Spill Information : Stop source of spill as soon as possible and notify appropriate

personnel. Utilize emergency response personal protection equipment prior to the start of any response. Evacuate all nonessential personnel. Dispose of spill residues per guidelines under

Section 13, Disposal Consideration.

7. HANDLING AND STORAGE

Handling: Do not take internally. Avoid contact with skin, eyes and clothing.

Upon contact with skin or eyes, wash off with water. Avoid breathing

dust from this material.

Storage: Store in a cool, dry place. Isolate from incompatible materials.

Incompatible Materials for Storage: Refer to Section 10, "Incompatible Materials."

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Ventilation: Local exhaust ventilation is recommended if significant dusting occurs.

Otherwise use general exhaust ventilation.

Protective Equipment for Routine Use of Product

Respiratory Protection: Respiratory protection not normally needed. If dusting occurs, wear a NIOSH

approved respirator.

Respirator Type: Wear a NIOSH approved N95 respirator.

Skin Protection: Wear impervious gloves to avoid skin contact. A safety shower should be

provided in the immediate work area.

Eye Protection: Use chemical goggles. Emergency eyewash should be provided in the

immediate work area.

Protective Clothing Type: Natural rubber, Neoprene, Nitrile

33.2% max.
Not applicable

octanol/water:

Evaporation Rate: Not applicable
Oxidizing: No data
Volatiles, % by vol.: Not applicable
VOC Content No data
HAP Content No data

10. STABILITY AND REACTIVITY

Stability and Reactivity Summary: Stable under normal conditions. Not sensitive to mechanical

shock. Not sensitive to static discharge. Product will not undergo

hazardous polymerization.

Conditions to Avoid: High temperatures, Contact with incompatible substances

Chemical Incompatibility: Aluminum powder, acids, Fluorine, Molten lithium Hazardous Decomposition Products: Carbon monoxide, Carbon dioxide, Sodium oxide

Decomposition Temperature: 851°C

11. TOXICOLOGICAL INFORMATION

Component Animal Toxicology

Oral LD50 value:

Sodium carbonate LD50 = 4,090 mg/kg Rat

Dermal LD50 value:

Sodium carbonate LD50 Believed to be > 2,000 mg/kg Rabbit

Inhalation LC50 value:

Sodium carbonate Inhalation LC50 1 h = 4.6 MG/L Rat

HTH® SPA PH INCREASER

REVISION DATE: 04/23/2009 Page 5 of 10

Arch Chemicals, Inc.

MATERIAL SAFETY DATA SHEET

Product Animal Toxicity

Oral LD50 value: LD50 Believed to be approximately 4,090 mg/kg rat

<u>Dermal LD50 value</u>: LD50 Believed to be > 2,000 mg/kg rabbit

Inhalation LC50 LC50 1 h Believed to be approximately 4.6 MG/L rat

value:

Skin Irritation: This material is expected to be mildly to moderately irritating. Eye Irritation: This material is expected to be moderately to severely irritating.

Skin Sensitization: This material is not known or reported to be a skin or respiratory sensitizer.

Acute Toxicity: Contact with the eyes and mucous membranes causes transient irritation. Minor

corneal involvement may occur if product is not rinsed immediately from the eyes.

Inhalation may cause irritation. Contact with skin causes irritation.

Subchronic / Chronic

Toxicity:

Damage to lungs has been observed in laboratory animals from repeated inhalation of high concentrations (70 mg/m3). This damage is characterized by thickening of the walls of the air sacs and a low grade of pulmonary inflammation. The risk to human health is low due to the high concentration required to produce the effect., Repeated or prolonged skin contact with this product may cause

dermatitis and blistering.

Sodium carbonate Male rats were exposed to an aerosol of 2% aqueous

solution of sodium carbonate, 4 hr.day, 5 days/week for

3-1/2 months. No effect was observed at a concentration of 10 or 20 mg/cubic meter. At 70 mg/cubic meter weight gain was decreased and the lungs showed thickening of the intra-alveolar walls, hyperemia, and lymphoid infiltration., Repeated or prolonged skin contact with this product may cause

dermatitis and blistering.

Reproductive and

Developmental Toxicity:

This chemical has been tested in laboratory animals and no evidence of

teratogenicity was seen.

Sodium carbonate This chemical has been tested in laboratory animals

and no evidence of teratogenicity was seen.

Mutagenicity: This product was determined to be non-mutagenic in the Ames assay. It was

also shown to be non-clastogenic in the chromosomal aberration test.

Sodium carbonate This product was determined to be non-mutagenic in

the Ames assay. It was also shown to be nonclastogenic in the chromosomal aberration test.

Carcinogenicity: This product is not known or reported to be carcinogenic by any reference

source including IARC, OSHA, NTP or EPA.

12. ECOLOGICAL INFORMATION

Overview: Practically non- toxic to fish and other aquatic organisms.

Ecological Toxicity Values for: Sodium carbonate

Fathead minnow (Pimephales - (nominal, static). 96 h LC50 < 850 mg/l

promelas),

Bluegill - (nominal, static). 96 h LC50 = 320 mg/l Mosquito fish - (nominal, static). 96 h LC50 = 740 mg/l

Daphnia magna, - (nominal, static). 48 h LC50= 265 mg/l

Ceriodaphnia dubia - (nominal) 48 h EC50= 199.82 mg/l

Navicula seminulum (diatom) - (nominal, static). 96 h EC50 = 242 mg/l

13. DISPOSAL CONSIDERATIONS

CARE MUST BE TAKEN TO PREVENT ENVIRONMENTAL CONTAMINATION FROM THE USE OF THE MATERIAL. THE USER OF THE MATERIAL HAS THE RESPONSIBILITY TO DISPOSE OF UNUSED MATERIAL, RESIDUES AND CONTAINERS IN COMPLIANCE WITH ALL RELEVANT LOCAL, STATE AND FEDERAL LAWS AND REGULATIONS REGARDING TREATMENT, STORAGE AND DISPOSAL FOR HAZARDOUS AND NONHAZARDOUS WASTES.

Waste Disposal Summary: If this product becomes a waste, it DOES NOT meet the criteria of a

hazardous waste as defined under 40 CFR 261, in that it does not exhibit the characteristics of hazardous waste of Subpart C, nor is it

listed as a hazardous waste under Subpart D.

Disposal Methods: As a nonhazardous waste, it should be disposed of in accordance

with local, state and federal regulations.

Potential US EPA Waste Codes: Not applicable

14. TRANSPORT INFORMATION

Land (US DOT): NOT REGULATED AS A DOT HAZARDOUS MATERIAL Water (IMDG): NOT REGULATED AS A HAZARDOUS MATERIAL,

Flash Point: Not applicable

Air (IATA): NOT REGULATED AS A HAZARDOUS MATERIAL,

Emergency Response Guide Number: Not applicable

Transportation Notes: 1) Inhalation toxicity data indicates product to be toxic by

inhalation, however, diameter of over 90% of granules well exceed 10 micron limit. Particles cannot be inhaled through lungs. Inhalation is not a normal route of absorption relative to

transportation.

15. REGULATORY INFORMATION

UNITED STATES:

Toxic Substances Control Act (TSCA): The components of this product are listed on the TSCA

Inventory of Existing Chemical Substances.

EPA Pesticide Registration Number: None established

FIFRA Listing of Pesticide Chemicals
